

FRONTEND DEVELOPER

MICHAEL ROY A. JARDINEL

Zone 6B Belano Street, Naga City | +639706248417 | jardinelmichaelroy27@gmail.com

PROFESSIONAL SUMMARY

Results-driven Frontend Developer specializing in building fast, responsive web applications using React.js and ES6+. Backed by a strong foundation in Node.js, PHP, and MySQL to seamlessly connect clean user interfaces with reliable backend systems.

WORK EXPERIENCE

Software Development/IT Support | Naga Parochial School (Intern) Feb 2026 - May 2026

- Co-developed a school website that successfully handled traffic from 1,200+ student voters on election day without crashing.
- Tested and optimized the system's frontend to guarantee smooth, error-free navigation for voters and administrators.
- Handled daily IT support, resolving 20+ hardware and software issues weekly to minimize classroom downtime.

PROJECTS

Dishora Food Ordering System (Capstone Project) June 2024 - Dec 2025

Tech Stack: JavaScript (ES6+), Laravel, MySQL

- Built a responsive food ordering platform called "Dishora" using JavaScript (ES6+) and Laravel, connecting 30+ local businesses with customers online.
- Designed clean website layouts in Figma, planning the look before coding to ensure the app was simple for anyone to use.
- Managed all project code using GitHub, collaborating with a team of 2 developers to add new features without any version conflicts.

Naga Parochial School Election System March 2026 - May 2026

Tech Stack: JavaScript (ES6+), React, Node, MySQL

- Built a fast React/Node.js website that handled heavy traffic without crashing or errors.
- Designed clean candidate dashboards that made complicated election data simple and easy to read.
- Created a smooth, checkout-style voting process so users could cast their votes in seconds without confusion.

EDUCATION

System Technology Institute College Naga 2022 - 2026

- Bachelor of Science in Information Technology
